

# “THE SANDPAPER”

WELCOME TO THE OUTER BANKS!

WINTER SPRING 2009

## “FEATURE HOME - DREESE OCEANFRONT HEAVEN”

**Carova 4WD** offers the builders many challenges, among them the tides & storms that sometimes makes the beaches impossible to drive. Not many souls will meet the battle head on and endure til the end. However, if they do, the peace and quiet refuge of the northern Currituck Beach is heavenly!

“Good things come to those that are patient and hold on to their dreams!” A true test for the storms of life is an oceanfront home enduring the northeasters and withstanding the sands and winds of time . This beautifully built home for **Tammie Dreesse & Wiezie** will endure the harsh elements and bring years of joy & pleasure to all their guests and family. To see the serene ocean backdrop from every bedroom , with a view of the soft sea oats whispering through the dunes is the ultimate Outer Banks experience that every visitor to these barrier islands dreams about. Sunrise mornings and dolphins swimming up the coast is the daily routine. There is no better view that the Outer Banks can offer!

## “BETTS SOUNDFRONT RETREAT”

**Craig & Linda Betts** deserve the best in life! They have served our country in both the military and teaching in our schools for a lifetime and now are stepping into their beautiful retirement home on the soundfront of Martin’s Point. Of course, not without one final trial to push them into their new nest for 2009!

### Special points of interest:
