

**From William S. Diggs III
President**

Thank you for expressing an interest in [Sandalwood Construction Co. Inc.](#) as the builder and/or designer for your new home! We are currently in our 31st year of operation, designing & building beautiful custom homes exclusively on NC's coastal barrier islands known as the Outer Banks. As you already know, our beaches are the finest in all of America, and are what originally drew me to the area when I was just in high school nearly 40 years ago. I've been surfing and enjoying these coastal islands together with my beautiful wife Lynn and (4) daughters (all who were born right here in Kitty Hawk, NC) and my (6) sisters along with their families. What an amazing testimony of an incredible lifestyle, living so close to the ocean and seeing it's awesome power & beauty every day and sharing that passion with my family & friends.

My background was actually as a pre-med student at ODU early in the 70's where I attended and swam on their college water team as a long distance swimmer and then played on the water polo team too. My whole life is about being in & around the water. It's no wonder that I ended up doing what I love & where I love & with who I love the most. So my years of experience living, building, owning, designing & furnishing homes helps me to understand all the issues that go into creating a beautiful "beach style" custom home.

Each & every home designed by [Sandcad](#) is centered around the theme of "lifestyle" designs. That is, incorporating all the elements of "beach living" into a home that captures not only the warmth & hospitality of a beach vacation home but also integrates the simple design flow of "open spaces, cathedral ceilings and plenty of glass" to capture the abundance of sunshine that we have here in NC. This "feeling of beach living" is present in all our homes and is very unique to our coastal area. Of course, whether the home is for residential or vacation use, the same elements of design are always desired. The fun comes when we can add the outdoor pool, spa & "Cali" kitchen areas to even further expand our "lifestyle" living to the outdoors!

Please take a moment to explore the many areas of this website so that you can familiarize yourself with all the fine products and services that we offer and get to meet the people that work with us to create these beautiful custom homes. If you have any questions and would like to meet with someone regarding owning & purchasing property, designing of house plans, commercial design, remodeling and/or additions, please contact our office to set up a meeting. **God Bless you and your family & enjoy our beautiful NC Outer Banks!**
